CORRESPONDENCE BRANCH

The volume of correspondence conducted by the Branch during the year shows a marked increase over that of the previous year. This increase was due for the most part to the additional duties assumed by the Department in connection with the administration of the Bankruptcy Act and of the Boards of Trade Amendment Act, 1920. It was noted in last year's report that all applications for appointment as Trustees under the Bankruptcy Act were received in this Department. The handling of these applications has not only entailed a large amount of correspondence but has occasioned no small increase in clerical work. This clerical work includes the filing, checking, registration and deposit of security bonds furnished by Trustees appointed. A list of Trustees appointed during the year will be found in the concluding pages of this volume.

Under the Boards of Trade Amendment Act, 1920, all Boards of Trade are required to make annual returns to this Department. Over 600 Boards are registered under the Boards of Trade Acts in the Department. In addition there are some 25 Boards incorporated under Special Acts which are also required to file the return. The conduct of the correspondence with these Boards and the filing and checking of their returns has required a great deal of attention and involved no little work. It should also be noted that several new Boards were registered during the year. Data respecting these Boards are given in the report of the Registrar's Branch.

THE CANADA TEMPERANCE ACT

The past year was marked by operations of far reaching importance under The Canada Temperance Act. Availing themselves of the provisions of Part IV of the Act which was enacted at the second session of Parliament in 1919, five Provinces, namely, Ontario, Nova Scotia, Manitoba, Alberta and Saskatchewan, forwarded resolutions requesting that plebiscites be taken in such Provinces on the question of the prohibition of the importation of intoxicating liquors. In pursuance thereof plebiscites were held on the 25th October, 1920, in the Provinces of Nova Scotia, Manitoba, Alberta and Saskatchewan. The vote in the Province of Ontario has been fixed for the 15th April instant. The result of the plebiscite in the four Provinces in which the vote was taken was more or less decisively in favour of the prohibition, the total number of the votes for and against being as follows:—

	For	Against
Nova Scotia	83,422	23,374
Manitoba	68,831	55,056
Saskatchewan	86,949	55,259
Alberta	63,012	44,321

The prohibition was accordingly declared in force in these Provinces from the 1st of February last.

No elections for bringing Part II of the Act into force or for repealing it in individual counties or cities were held during the year but the operation of that Part was suspended by Order in Council under Chapter 30, 7-8 George V, "An Act to amend an Act in aid of Provincial Legislation prohibiting or restricting the sale or use of intoxicating liquors," in the Counties of Perth, Huron and Peel, Ontario. The suspending orders were passed on the following dates: Perth and Huron, 12th November, 1920; Peel, 24th March, 1921.

SESSIONAL PAPER No. 29

TICKET-OF-LEAVE ACT

The work in connection with the administration of this Act shows a considerable increase over that of the previous year. The number of licenses or tickets-of-leave issued during the year was 872. The correspondence relative to the grant of these licenses shows a corresponding increase. It should be noted too that the above number of licenses represents only the cases in which clemency was granted. Many other cases came under review in which remission of sentence was withheld. The disposal of these cases augmented to a very considerable extent the correspondence and the clerical work of the office. In addition to the work of administering the above Act, the Remission Office has dealt with 20 capital cases jointly with the Department of Justice. The Judges' reports and evidence in all such cases are filed with the Secretary of State, who also communicates the Governor General's decisions regarding the execution of the sentences to the authorities concerned. Of the 20 cases above mentioned the death sentence was carried out in 7; in 13 the sentence was commuted to imprisonment varying from ten years to a life term. Two females convicted of murder had their sentences commuted.

THE WAR CHARITIES ACT, 1917

Activity under the War Charities Act has been well sustained during the year. Some 400 societies are now registered under the Act. These societies continue to display untiring energy in their efforts to promote the welfare of those who still suffer from the effects of the war. A number of societies whose relief work was concluded during the year were removed from the register. The following schedule shows the societies registered during the period:—

THE TRADE UNIONS ACT

Operations under this Act were normal during the year. Data respecting the unions registered will be found in the report of the Registrar's Branch.

In addition to the administration of the above Acts, the Correspondence Branch has to do with a great variety of matters of an important nature, such as extradition, petitions of right, grant of the Imperial Service, Albert, Police and other medals, petitions and memorials to the Governor General in Council, provincial legislation, authentication of legal documents, etc. It should be noted too that the correspondence conducted in the Branch includes the official correspondence between the Dominion and Provincial Governments.

It may be proper to state in conclusion that the work connected with the classification of the Department has been discharged by this Branch. I am glad to state that the negotiations with the Commission although protracted have resulted in the removal of much of the dissatisfaction arising out of the original classification.

²Quarterly returns of these lands were sent to the registrar of each city and county in the province of Ontario, and to the secretary-treasurer of each city and county in the province of Quebec in which patents were issued, and a copy of the several returns in Ontario was also sent to the provincial secretary of Ontario.

During the year copies have been furnished of over 4,000 pages of documents, manuscripts and records.

The searching for names through the Dominion and provincial lists of incorporated companies in order to prevent duplication has also occupied much time.

A large amount of miscellaneous work has been performed, such as proofreading, furnishing memoranda of various kinds, and supplying information from the indices and records.

A list of public officers to whom commissions have been issued, and a list of Boards of Trade and Trade Unions registered since the last report are also submitted herewith.
